PERMIT INFORMATION

1. Complete a supplemental application (above).
2. Submit (3) three copies of the plot plan and (2) two floor plans.
3. Complete and submit the "Manufactured Installation Information Sheet". A copy of the manufacturer's installation instructions should be on the job if manufactured after October, 1973. **Provide 2 copies of the State approved Tie Downs for manufactured home.**
4. Complete a route slip for approval of all the departments.
5. Take the route slip and plot plans to Planning for their zoning and setback approval, Public Works and Health Dept. for their approval. (Health Dept. approval usually takes a couple of weeks).
6. **The necessary certificate from the School/Fire districts** verifying that the mitigation fees have been paid.
7. Once the approvals from all the departments are obtained, the School/Fire fees certificates are obtained, and the Installation information sheet is complete, you should be able to obtain your permit.
